

DO YOU WANT TO LOOK AND FEEL YOUNGER?

CURAGE
med

DO YOU WISH YOU HAD NO WRINKLES?

Do you look in the mirror and think that you're beginning to look a little more wrinkled every day? **Well we have good news for you!** You no longer have to accept your wrinkles thanks to **BOTOX**® and **injectables fillers**.

The science behind BOTOX® is actually quite simple. Once injected into a specific facial muscle, BOTOX®, which contains very small amounts of purified botulinum protein, relaxes the muscle and stops the activities that produce wrinkles in that area.

**OVER 1.6 MILLION
PEOPLE HAVE CHOSEN
TO HAVE BOTOX®
COSMETIC INJECTIONS**

THE MAGIC OF RELAXING TIGHT MUSCLES

In clinical trials, nearly **90%** of the men and women surveyed rated the improvement in their brow lines. BOTOX® and fillers are some of today's most popular cosmetic procedures for reducing wrinkles and replacing tissue loss to leave skin looking young and beautiful.

THE ART OF A NATURAL LOOK WITH THE RIGHT ESTHETIC DOCTOR!

It is important to look for a qualified physician to perform the procedure. Make sure that the physician is trained and qualified in cosmetic skin surgery of the face. **Ask questions and be informed about the procedure.**

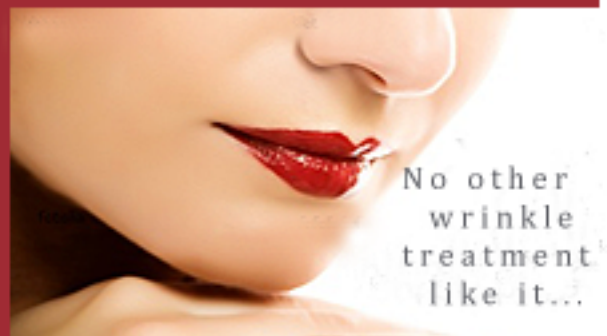

NOW OPEN

CurAge Med Esthetique is now open with a team of 5 esthetic physicians ready to make you look and feel years younger!! Come and live a transformation without any surgery.

The team of esthetic medicine specialists carry several years of esthetic medicine practice and are specialized in the domain. Make an appointment for a consultation at \$75 and receive a free Microdermabrasion valued at \$150 as a special offer!

Come join us at our "Grand Opening" on April 28, 2009 for a cocktail at 6:30 pm.
